Great Rally at Court House Tonight

JAMES MILLS SAYS MRS. GIBSON TELLS TRUTH OF SLAYING

New Brunswick, N. J., Nov. 3.—James Mills, husband of the slain woman who was killed with Rev. Edward Hall, today stood on the scene of the double slaying and declared he thought there was a great deal of truth in the story of Mrs. Jane Gibson, the "big woman."

"My wife and Dr. Hall were killed

James Mills

This is the most recent photograph of the husband of the murdered choir singer.

by someone very close to them," said the man who heretofore has been a meek, unobtrusive person, but who now is demanding that the mystery be cleared up. "The killing in such a manner could never have been carried out by a stranger. They evidently wanted the bodies to be found and identified, else they would have placed them in the thicket obscure from view."

"The murderer, in my opinion, was related to one of them. I believe Mrs. Gibson's story is true."

JUDGE McLAUGHRIN REBUKES BREWERS IN LICENSE COURT

Merzer, Pa., Nov. 3.—"Brewers have a higher regard for the almighty dollar than for the constitution of the United States," declared Judge McLaughrin today in summarily denying licenses to the applicants at the regular license court. During the examination of applicants each was asked what the difference was between real beer and near beer. Many replied they had difficulty in distinguishing any difference. This admission had a great deal to do with the refusals and brought about the caustic comment of the judge.

DECEMBER JURY IS DRAWN

Jury Commissioner H. C. Conner, of Bunside, and A. Y. Straw, of Pike township, assisted by Sheriff T. J. Lowell, completed the drawing of the jury for December term of court.

They will now fill the jury wheel for 1923.

JORDAN-DELANEY

Von Jordan and Marion Delaney were married in the Eleventh Street Methodist Episcopal Parsonage by the Rev. Charles K. Gibson, on October 18th. They were accompanied by Theodore Jordan and Virginia Delaney. The ring ceremony was used. The newly married couple have taken apartments in the St. Charles.

NEW TURKEY VOTES TO OUST SULTAN FROM THRONE

Constantinople, Nov. 3.—The "New Turkey" has abolished the office of Sultan and the law of succession. A measure passed by the National Assembly of the Ankara government does away with the "Sultany" and repeals the law of succession under which Turkey has been bound and fettered for centuries.

The Khalif who will take over the holy duties and rule over church affairs, an office heretofore held by the Sultan, will be elected periodically and the national assembly will assume all the powers of government.

A salute of one hundred guns roared in celebration of the passing of the new laws.

RECORD TIME IS MADE IN SENTENCE GIVEN ASSAULT

Muskegon, Mich., Nov. 2.—Amid the cheers of hundreds of citizens crowded into and surrounding the circuit court chambers here today Raymond Wilson, confessed abductor of 11-year-old Rosalie Shanty, was sentenced to imprisonment at Marquette for from 35 to 40 years. The court expressed regret a life term could not be imposed.

In sentencing the prisoner the court explained that the delay was to permit study of the case in the hope that some way might be found to impose a heavy penalty. Forty years, the maximum, was recommended.

Wilson, who is 41 years old, confessed to the abduction and attack upon Rosalie Shanty to Assistant City Prosecutor Glenn Dunn shortly before daybreak today after an all-night grilling.

At the time of confession, Chief of Police Peter Hansen and Sheriff William O. Matthews were present.

With a cigarette in his mouth and a trifle stooped in a chair after an ordeal which lasted for hours, he calmly recited the sordid details. "I had been drinking moonshine," he said at one time during the recital.

Wilson is about six feet tall and weighs more than 170 pounds. In his confession Wilson said Rosalie ran away from him, screaming in terror, at 5 o'clock last Monday evening. She was not found until Tuesday at 6 o'clock in the evening. The police were amazed to find the little

COMPLETE VICTORY IS FORECAST MADE BY GENERAL MINER

Philadelphia, Nov. 2.—Complete victory for the entire Republican ticket and an unusually heavy G. O. P. poll throughout the northeastern section of the State, particularly in the anthracite coal region, is forecast by Colonel Asher Miner, of Wilkes-Barre.

The famous world war veteran, in a telegram to W. Harry Baken, Chairman of the Republican State Committee, predicts the election of Senators Pepper and Reed, and Gifford Pinchot, gubernatorial nominee, by more than the usual off-year majority. In his telegram Colonel Miner says:

"I am absolutely confident of a complete victory for the entire Republican Ticket with more than the usual off year majority. Recently the voters have shown a greatly increased interest in the election and the much talked-of apathy has disappeared. Gifford Pinchot has always been strong in Northeastern Pennsylvania and as he has become better known has become more and more popular and stronger than ever. The voters both women and men are with him and mean to stand by him in carrying out his policies."

"Senator George Wharton Pepper and David A. Reed have impressed the people with the fact that they are an exceedingly strong and able team, that Pennsylvania has not been better represented in the United States Senate for many years if ever and that, therefore, they must be continued in office."

"A splendid soldier candidate for Lieutenant-Governor, Mr. David J. Davis, seems to have no opposition. He is being enthusiastically supported by all ex-service men, as well as by all the other voters. He will have a magnificent majority."

"In this Congressional District Congressman Clarence Coughlin is running splendidly and is sure to repeat his splendid victory of two years ago as his record in Congress cannot be surpassed and the voters want no change but will keep him where he is. Luzerne County is also sure to gain a Republican State Senator in the election of Crawford Smith who has impressed everyone with his sincerity and strength altogether. I feel that you as State Chairman can congratulate yourself on the situation and feel sure of a glorious victory."

girl had wandered through the pine-clad forests of northern Michigan for hours.

STRENUOUS PREPARATIONS MADE FOR VISIT OF LOCK HAVEN HERE TOMORROW

By DICK LEIPOLD

This afternoon, Coach Reed and Walt Flegal sent the Varsity players thru their final practice prior to the big game tomorrow with Lock Haven High School on the Local Gridiron. Several new formations that have been developed the past week especially for the Lock Haven clash were thoroughly rehearsed with all the Varsity substitutes getting into the drill, as the entire squad will be subject to call against the crack downriver scoring machine.

Howe Lost, But Gano Returns
Ham Howe, star end and fullback will not be able to start tomorrow, as he is still suffering with some badly sprained leg tendons, but Gano star 170 pound guard reported to the trainers Thursday evening after a two week's absence, due to injuries sustained in the Greensburg game. Gano's presence on the line at this time will be a great help to the Red and Black, as he is a tower of strength on either offense or defense. Hedy Johnson, with a special steel leg brace, will be at his regular post, half back, while Capt. Withrow will start at center, as the condition of

DR. M. R. HOAG
Lock Haven High's Hustling Coach.

his leg is much improved.

First Game Since 1919

The invading foot ballers will be accompanied by a large delegation (Continued on Page Six)

THE LAKES-TO-SEA AT A GLANCE

Editor, Charles S. Lord, of the Reynoldsville Star, one of the original band of boosters who made the cross-country Lakes-to-the-Sea highway a possibility and whose indefatigable efforts along with those of his associates will make that highway a completed realization by the end of 1923, printed the following description of the route in his Star last week. It shows the highway as it stands and it gives a clear insight into the sections completed:

Here is a "type and rule" map of the Lakes to Sea from Erie to Tyrone. It is, of course, not accurate to scale but approximately so, and will give an excellent idea of the present condition of the route—the parts paved, the few remaining breaks and where they are. The double line sections are now paved and either open or will be open by the middle of November. The single line indicates sections where paving operations were not finished this year.

Erie	
Waterford	2 mile break
Cambridge Springs	
Sagertown	2 1/2 miles unfinished.
Meadville	
Cochranston	Contract here finished Oct. 30.
Wyattville	15 miles of continuous paving.
Franklin	3 miles unfinished.
Oil City	Bridge to be built.
Van	6 miles not paved but may be avoided by detour to Oil City.
Shipperville	Break of 2,000 feet under railroad; cinder.
Clarion	
Brookville	Approximately 80 miles of continuous concrete.
Reynoldsville	
DuBois	A town named DuBois may be seen to the left.
Grampian	Paved thru Grampian Boro.
Curwensville	
Clearfield	Continuous paving for about 38 miles.
Philipsburg	
Sandy Ridge	
Bald Eagle	2 mile break.
Tyrone	Will be finished in 2 weeks.

Where it joins Wm. Penn Highway.

From this map it will be seen that of the entire distance from Erie to Tyrone, less than 20 miles remains to be finished next year, and of this seven miles are in one stretch at Grampian. There are four other contracts on each of which there are breaks of about two miles. All should be finished by the middle of 1923, except the Grampian link, where there is grave doubt of the contractor's ability to finish even by the end of 1923.

Mrs. Charles Livingston and little son of Altoona are visiting Mrs. Livingston's parents.

STATE SCHOOLS PUT NEAR TOP OF THE LIST; GREAT PROGRESS MADE IN PAST THREE YEARS VINDICATES DR. FINEGAN

Pennsylvania, rated as twenty-first among the States in the matter of education in 1918, has made such rapid strides in the last three years that it now stands close to the top in the educational list.

The gain in three years has been at least 33 per cent. The result is that this State now has a rating educationally which places it given the State ranking second in the list in 1918.

As the State's greatest progress has been made since the adoption of the present educational system—in force during two of the three years in which a gain of 33 per cent. was made—it is evident that had the present system been put in force sooner the State would have ranked in 1918 among the first instead of twenty-first.

The compilation which gives to Pennsylvania the new rating was made in the approved manner, following the same principles and on the same basis as that of the Russell Sage Foundation, made by Dr. Leonard P. Ayres in 1918.

Vindicates Finegan System.
This advance is taken by educators throughout the country as a complete vindication of the system established by Mr. Thomas E. Finegan, State Superintendent of Education, and backed by the State Legislature through the passage of the Education act during the session of 1921.

The method of computing the ranking of the State in education is complex and long. The figures of attendance and expenditures are balanced and compared with the State census of children of school age. From this balancing is obtained a number which is termed the index figure for the

State. The index figure which gave Montana the leadership of the country in 1918 was placed by the Sage Foundation at 75.79. The index figure of Pennsylvania in the same year was 57.65.

The Pennsylvania index figure today is 75.33 or but forty-six one hundredths of a per cent. behind the index figure which led the country three years ago.

That new index figure has been compiled from figures of the State Department of Education for educational attendance and expenditures for the year 1921. The compilation of that figure and the correctness of the new index, number has been checked and pronounced correct by Dr. Ralph G. Hurlin, director of the department of statistics of the Russell Sage Foundation.

Dr. Hurlin Approves Method.
Dr. Hurlin, in going over the figures used, said he had found the method employed in making these calculations correct and in accordance with the method employed by Dr. Ayres who made the calculations in 1918. In commenting on the results, Dr. Hurlin said:

"Having gone over with you the methods followed in computing the school system's index number for Pennsylvania for the year 1921, and having examined the component index numbers calculated by you, I do not see any reason to doubt the comparability of your index number with the number computed by Dr. Ayres for Pennsylvania for the series of years ending in 1918."

"You understand, I realize, that this statement concerns only the (Continued on Page Seven)

UNSEEN POWER, NOT MRS. ROSIER, FIRED SHOTS, SAYS SCOTT

Philadelphia, Nov. 3.—Pleading with the jury for the acquittal of Mrs. Katherine Rosier, 22 year old sister of her husband and his stenographer Jerry Rickett, counsel John R. K. Scott today savagely attacked the Commonwealth evidence. Scott declared the shots that entered the bodies of Rosier and the girl were fired, not by the girl, but by an unseen power in her mind which for the moment had complete control of her actions. The case may go to the jury late today.

TWO TRAIN ROBBERS KILLED IN HOLD-UP NEAR MEMPHIS, TENN.

Memphis, Tenn., Nov. 3.—Two train robbers were shot and killed today when they held up the St. Louis-Memphis special on the Frisco System near a point called 65. Jack Kennedy, alias "The Quail Hunter," an ex-convict who has served 20 years for train robberies is believed to be the name of one but the other is unidentified.

PRETTY HOME WEDDING

The home of Mr. and Mrs. William Hainey, at 406 River street, was the scene of a pretty home wedding on Monday last, when their daughter Miss Hannah, became the 14 year old bride of G. L. Siles, of Dilltown, Pa. The couple were attended by Denzel Rainey, the bride's brother and Miss Hannah Smith, cousin of the bride. The happy young couple departed after the ceremony for a wedding tour which will embrace the western cities and on their return will take up their residence in Clearfield.

Mrs. Samuel Forney and little son have returned to DuBois, having spent several days with Mr. and Mrs. Arthur Rowe.

MUMMERS' PARADE TO BE FEATURE OF BIG ARMISTICE DAY HERE

John Shade Post of the American Legion is making preliminary arrangements for the staging of a big Armistice Day celebration in Clearfield.

A feature of the big time will be a monster mummer's parade in the evening. In this parade all who desire to may enter and contest for the different prizes to be awarded the paraders. There will be several prizes and everybody will have a chance at them.

Clearfield, thus far, has never staged a real Armistice Day celebration since the first impromptu affair which bobbed up spontaneously upon receipt of the glad tidings that the great world war had ceased. The Legion boys propose now to put on a celebration worthy of the day and so merit the co-operation of every resident of Clearfield.

Let us all turn in and help the boys and make memorable this occasion in remembrance of those comrades in arms who have passed beyond after giving their all to their country.

The program has not been completed yet, but we know already that it is going to be some time. The Legion Band and the Clearfield Italian Band will furnish the music for the occasion, which guarantees that feature to be well taken care of.

Following the parade the American Legion Auxiliary and the American Legion will entertain at The Dime-ling with a banquet, dance, etc., and there will also be a public meeting in the Court House during the evening.

As we said before this is just a preliminary announcement. We will have more to say about the big celebration from time to time. Meaning the affair the success it should

PINCHOT TICKET IS TO BE BOOSTED BY MANY SPEAKERS

Will Mark Beginning of
Ballot Battle Which
Won't End Until 7 P.
M. Next Tuesday.

LADY WILL SPEAK

The Republican rally at the Court House tonight promises to be the largest and most enthusiastic meeting of the present campaign.

The committee in charge has been informed that large delegations of Republicans will come to Clearfield from every section of the county and an "overflow" meeting on the Court House square it is thought will be necessary.

The list of speakers contains the names of the leading local orators in addition to the different District candidates, while the "topliner" of the evening is the Hon. Emerson Collins, of Williamsport, a Deputy Attorney General and noted as one of the best, if not the very best public speaker among the Republicans of the State. Mr. Collins is a highly pleasing, convincing talker and the message he brings to Clearfield county Republicans this evening will warm the co-dles of their hearts.

Mrs. Edith Elliott Smith, a talented woman speaker from Philadelphia, will also address the meeting, paying special attention to those problems the woman voter is attempting to solve for herself.

That old "war horse" of many Clearfield county campaigns, A. H. Woodward, Esq., is also on the program, and it is needless to tell a Clearfield county audience what a treat his speech will be.

District Attorney John C. Arnold, another militant apostle of Republicanism, with the courage of his convictions and the ability to present Republicanism in its most alluring form, will also give his reasons for the absolute necessity of continuing that party in power in the State.

Hon. William I. Swoope, our candidate for Congress, the placing of whose name on the speaker's program always insures a crowd on any occasion, will talk to his friends and neighbors and endeavor to show them how right will triumph with the election of Gifford Pinchot and the entire Republican ticket in the State.

Hon. Harry B. Scott, of Philipsburg, who will represent this district in the Senate at Harrisburg for the coming four years, whose presence in that body will be a real asset to Centre and Clearfield counties, is also on the program for a business man's talk, while Hon. D. D. Miller, of Grampian, and Hon. Charles B. Jones, of Ramey, will also address the meeting.

This gathering promises to be one of those old-time "ringside" meetings, such as were held in days of yore, and every person desiring to hear the issues now confronting the electorate of Pennsylvania intelligently and fairly discussed should be present.

Mrs. James Schwem of DuBois is visiting Judge and Mrs. Singleton Bell.

It is his bounden duty to assist in making the affair the success it should be while let every Clearfielder consider be.

Tom Sims SAYS--

A man bigger than you is never a liar. He is mistaken.

In describing a whirlwind talker you can leave off the whirl.

An excellent book to carry on a trip is a railroad book.

Twenty years ago we were discussing prohibition, but not as much as we are now.

Girl rode 5000 miles to marry a man in Florida, but some chase a man farther without luck.

Immodest bathing suits have gone. Immodest divorce suits have not.

Scientist finds the average mouse runs about ten miles a day. Read this to the women folks.

The trouble with taking things as they come is you never can tell what is coming.

They have talking movies in Germany and talking audiences here.

If Dempsey can't get mad enough to fight why not appoint an assistant champion?

Mrs. John Blake of Curwensville was among those shopping here yesterday.

Mr. and Mrs. H. A. Krebs, of Wilam street entertained at dinner yesterday, the latter's parents, Mr. and Mrs. Jas. A. McLaughlin and Mrs. Clara McLaughlin, of Clairton, who are spending the winter in this place.

The T. A. G. Club of the West Side, gave a masquerade party at the Third Ward school Thursday evening in honor of their friends. Delicious refreshments were served at a late hour and the guests departed having spent a very delightful evening. This is one of the many successful clubs over which Mrs. Cal. Johnson, of Nichol street supervises.

Bora, a bouncing boy-baby to Mr. and Mrs. Gerald Roach of Osceola, at the home of Dr. A. C. Lynn at Philipaburg.

GETTING UP NIGHTS

This is One of Nature's Danger Signs. E. E. Mullen Tells Experience

E. E. Mullen, No. Kenova, Ohio, says: "For 10 years I have been troubled with kidney and bladder. I had to get up 5 or 6 times each night. I had taken many kinds of medicine, but Lithiated Buchu (Keller formula) is the only kind that gave me any relief. My bladder is normal and I have only used the remedy for three weeks. If you want further facts, write me."

Lithiated Buchu (Keller formula) acts on the kidneys and bladder like Epsom Salts on the bowels. It cleans them out, relieving the passage of many abnormal deposits. These tablets cost 2c apiece. The price makes it possible to place in the formula several drugs which are useful for relief. The formula is on the package. It is not likely you have ever taken anything similar. Try a few tablets for backache, scalding, scanty or high-colored urine, and frequent desire at night. Be sure to get the Keller formula Lithiated Buchu at all drug stores, or write Keller Laboratory, Mechanicsburg, O., or locally at Stewark Drug Store.

ODDS AND ENDS AND THINGS

By J. D. C.

The yellow journals of birdland, if any existed, could print some racy stories about their prominent citizens, if polygamy were news; but, on the contrary, it is quite common among man's feathered friends, according to S. Prentiss Baldwin, of Cleveland, speaking before the fortieth state meeting of the American Ornithologists' union, at the Field museum, Chicago.

Birds, he has found, show little fidelity for their mates beyond a single season, and usually have new ones every year.

Mr. Baldwin has a farm at Thomsville, Ga., and has been banding birds for several years. In one respect the birds show remarkable fidelity to their "summer homes," Mr. Baldwin has observed among those birds he has banded.

They return from the north to the outland regularly each winter, and go back to the pen where they were first banded. Mr. Baldwin said, tho usually with a new mate.

One house wren observed by Mr. Baldwin had a new mate each season for four years. In another case Mr. Baldwin observed a pair of wrens in 1919. They returned in 1921 with a son each, with a new mate, and the son himself had taken a bride. But

ATTENTION!

Farmers and Dairymen

THE STONE HOUSE FARM has for sale three pure bred Holstein Bull Calves from 3 to 5 weeks old, out of some of the best bred and most valuable stock in central Pennsylvania.

THE DAMS of these calves are granddaughters of Pontiac Korndyke, one of the most famous bulls in this country. Those cows during the last 11 months gave 8333 lbs, 8728 lbs and 8808 lbs of milk respectively. The former two it was their first time fresh and this year their records so far indicate that they will produce at least 10,000 pounds of milk each.

THE SIRE of these calves is Major Lyons Korndyke, No. 341142, the STONE HOUSE FARM two year five months old bull that won three blue ribbons at this year's Clearfield County Fair, being declared Grand Champion by the judges over pure bred Holstein bulls of every class.

If you want to increase the milk production of YOUR herds and hence the net profit of YOUR dairy, you can do so by securing one of these excellently bred bull calves. Address without delay

OTHELLO RANGE
...is...
The Perfect Range

Your Wife can do Better Baking with one of OUR NEW IMPROVED OTHELLO RANGE

LESS FUEL EVEN HEAT LESS WORK

The OTHELLO is the perfect range, because every part and principle is the result of test and elimination. But aside from the mechanical principles, did you ever stop to consider the features that govern a woman, in making her choice of a Range? They are refined simplicity, ease of operation, and durability—good service.

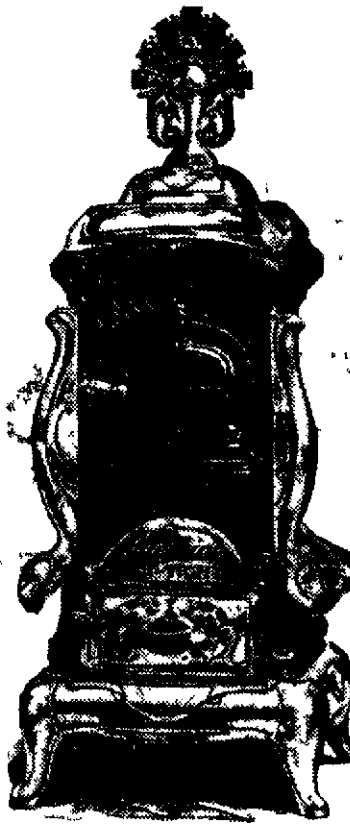

The OTHELLO in a tasteful shade of Enamel, selected with reference to other Kitchen furnishings, may be quite as pleasing to the eye as the Piano in the Parlor. It is clean—attractive—efficient. Its possession assures the contented feeling, which is the accompaniment of perfect work.

The OTHELLO is everywhere considered the standard.

There are over 300,000 housekeepers using the OTHELLO Range today. When the great number of rival cooking Ranges is considered—there certainly must be a reason.

The advent of Porcelain Enamel, as applied to cooking apparatus, has rescued the lowly range from its dark corner of the Kitchen to a "place in the Sun."

Buy Your OTHELLO Before We Must Advance The Price.

SUNSHINE AIR-TIGHT DOUBLE HEATER

This is an entirely new production, original in design and embodying all of the good points of the most successful Air-Tights previously put upon the market. Already it is receiving the most favorable comments, as to its splendid appearance, and completeness in every respect. Immediately upon its introduction, a voluntary letter of commendation was received from one of the largest handlers of Air-Tight stoves in Pennsylvania. This has been followed by others, of a similar character, quite unsolicited by us. So that we are convinced, we have in this stove, the very best Air-Tight, anywhere to be found

Pasturization Protects the Baby

The process of pasteurization thru which all our milk passes protects the baby who is being "brought up on a bottle." There's absolutely no danger, providing the bottles and other things are given proper care, of the baby getting any of the possible germs that lurk in milk that has not gone thru the pasteurization process. These germs are absolutely done away with thru the process.

Feed the baby all the Clearfield Milk he or she can drink and you'll be surprised at the way regular gains are being made right along.

Clearfield Dairy Co.

GLASS BASKETS 98c

Here is a little buy we made and it just came in time for you to plan on having one for the dressing of your table for the Thanksgiving dinner.

It is made from a heavy weight, with a full ring glass and the pattern is cut in deeply, with sharp edges. The handle is sturdy and won't break very easily.

Drop in and see them and then plan to yourself how pretty one would look as the center of your Thanksgiving table, filled with fruit.

Enrich the Diet

When the diet is deficient in health-building vitamins, children and adults suffer in body and strength.

Scott's Emulsion

of pure cod liver oil abounds in health-building vitamins. If the body is run down in vitality, add the pure vitamin richness of Scott's Emulsion to the diet. It builds up health.

Scott & Borne, Bloomfield, N.J. 22-27

Good Work Never Lost.
No good work is ever lost; many laborers must be content to sow, others will come to reap the harvest.
—Max Muller.

Strenuous Preparation

(Continued From Page One.)

of rooters, who are backing their team to win, altho they admit Clearfield to be their most formidable rival, according to all the "dope." Tomorrow afternoon will be the first contest between Clearfield Hi and Lock Haven H. S. since 1919, when the local outfit journeyed down to the log boom town and lost 7 to 7. Clearfield's Coach was not pleased

with the officiating, which was reported to be very "loose."

Real Team Will Represent Visitors

Under the coaching of Dr. Hoag former University of Pittsburgh football star the down river city has rapidly forged to the front ranks in scholastic football circles. Last season playing a long and hard schedule Lock Haven lost but one game, to Mt. Carmel, by a 6 to 0 score. Every man that played last fall is a member of this season's squad. Six men are playing Varsity ball for the third consecutive season, two players have been regulars four years, while the remaining three gridders that round out the line-up that start against C. H. S. tomorrow are second season men. Clearfield will be out weighed several pounds to the man, the visitors having unusually heavy high school ends. Johnnie Rathgeber, playing his fourth Varsity year in the back field at quarterback, is said to be one of the best school boy generals in Central Penna. The Lock Haven machine is going at top speed now, with wins over Johnstown, Altoona, Williamsport and several lesser elevens expect to riot C. H. S. tomorrow and thus tighten their claim to a Central Pennsylvania Championship. However, the local squad, bungled up as it is, will enter the contest determined to fight to the final whistle.

A real game is in store for the fans who attend. Clearfield Hi will not play at home until November 25, State steam roller. If Greensburg wins, they will be favorites to retain the State H. S. title.

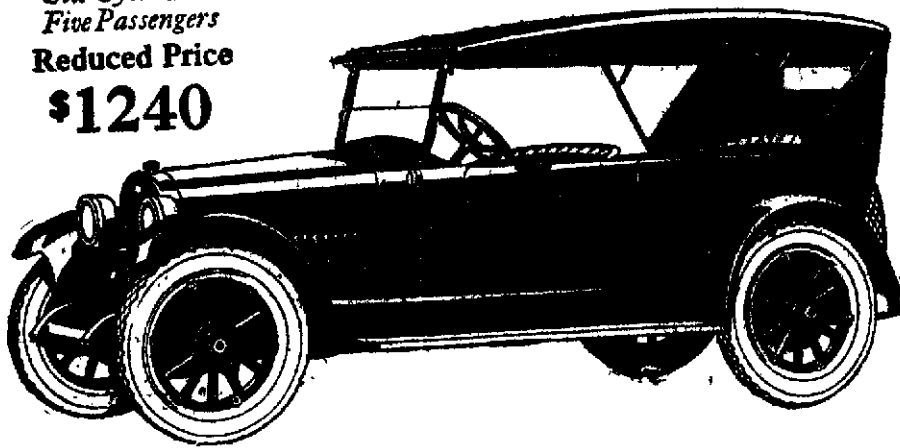

A number of important school boy battles tomorrow will be of interest to local fans. Greensburg Hi will get its first real test Saturday, when the

University of Pennsylvania Junior eleven lines up at Greensburg, Pa., to block traffic in front of the West State steam roller. If Greensburg wins, they will be favorites to retain the State H. S. title.

Here are some near home games: Curwensville vs. Cooper township at Curwensville. Philipsburg vs. Juniata High at Philipsburg. DuBois vs. Ridgway at DuBois.

ACCURACY in ACCOUNTING

Within the memory of persons still living the word "accounting" brought up a picture of a man on a high stool writing with a quill pen and using sand instead of blotting paper.

But the telephone belongs to a newer era, and telephone accounting is as modern and as accurate as is humanly possible.

The men and women who do the accounting work are careful and take every precaution to avoid mistakes.

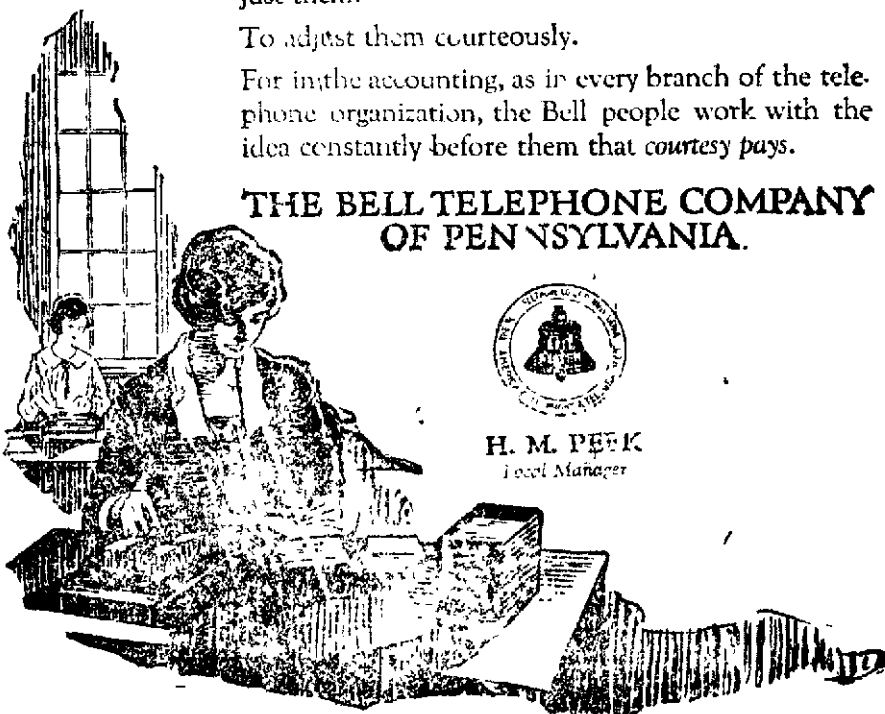

For they know that errors sometimes cause misunderstandings.

When mistakes do occur—and they are bound to occur once in a while—every effort is made to adjust them.

To adjust them courteously.

For in the accounting, as in every branch of the telephone organization, the Bell people work with the idea constantly before them that courtesy pays.

HAVING YOUR TRUCK REBUILT DURING THE WINTER MONTHS IS A MATTER OF ECONOMY

You'll find that having your truck rebuilt during the time it would ordinarily lay on skids is a matter of real economy for you are having this done while the truck would usually be idle and not earning anything. If you put it off, you'll have to have it done when your truck might be earning you some money.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The funeral of Mrs. Wilson Maner was held yesterday afternoon and was attended by a large number of friends, forty eight members of her bible class being present at the church in a body. The floral offerings were plentiful and beautiful in design. Many wended their way to the cemetery to witness the last sad rites performed at the grave of their friend.

The Bloomington Coal Company is extending their operations and arranging to mine and take out the coal from under the Stacy Bowman farm near Bloomington. Among other mining appliances being put in the new opening will be a cutting and loading machine. The vein is about 22 to 28 inches.

For the past two or three days almost every male of legitimate age, who owned or could borrow a gun, has been roaming the woods and fields in quest of wily rabbit and seductive quail or pheasant. So far as a confirmation of reports is concerned, no nimrod has confessed to securing the limit in one day as allowed by law.

There is not a great many tax payers in this town who directly oppose the paving of Thompson street from State to George street. There is no doubt whatever, the property owners along that line, if approached in a proper manner, would agree to have the street paved on the same terms that Walnut street property owners are having that work done. That this improvement is a long felt want, none can deny, and now is

just as good a time as a year hence to have the work done.

"Will the vote on the school house bond issue be favorable or unfavorable, is the question that is being debated by the voters of this borough at present. Individually speaking the writer is an advocate of the new bond issue, because it is demonstrated more clearly day after day the town's need of a larger and more commodious High School building, and one in which there should be ample room, not only to accommodate the town students, but the large number that attend the Curwensville High School from adjoining territory. Pike township pays into the school fund almost \$4,000 yearly as a compensation for schooling residents of that precinct. Had Curwensville the facilities for taking care of non-resident pupils, that income would possibly double itself, but this cannot be done unless the school board be given the financial support in the erection of a new High School building. Think it over carefully, voter.

STATE SCHOOLS

(Continued From Page One)

method of calculation, since I have not examined the actual calculations involved.

"The 1921 index number suggests a striking improvement in the Pennsylvania system notwithstanding the fact that some of the increase due to financial items is to be explained on the ground of a general situation in education.

"I think Pennsylvania may well congratulate itself upon the situation."

Dr. Finegan is Pleased. Dr. Thomas E. Finegan was extremely pleased when shown the figures representing the gain in education in the State.

"I am gratified to learn," he said, "that the Evening Public Ledger has had the enterprise to have these calculations made and that the results found show such advancement in the

educational progress of the State. The full force of the State program in education is not reflected in these figures. They represent the first two years of the present administration and do not show the progress achieved under the legislation of 1921 including the Edmonds law, which did not become effective until the school year 1921-22.

"While we have reason for encouragement in the results, which these computations show, we must keep in mind that other States have made progress and that these figures do not yet place Pennsylvania at the head of the list, where she belongs and the position she must attain." The details of the study of the increased efficiency show a gain in every item but one of the ten important details which are the fundamentals used in finding a correct index number for the State. Five of the ten items deal entirely with compulsory attendance.

Attendance Laws Rigidly Enforced. One of the most important actions taken by the State authorities, and the one which has received great criticism, has been the rigid enforcement of the attendance laws as laid down by the State.

Soon after the reorganization of the State Department Dr. Finegan announced that school appropriations would be withheld from school districts that did not enforce the attendance laws. The State Department of Attendance then went into every district of the State to supervise the rigid enforcement. The action brought great criticism on Dr. Finegan, especially when he withheld the appropriations in several cases. The result, however, is evident for the percentage of school population attending school daily in 1918 was 56.02 while for the year

1921 it reached 73.07.

In like manner the average daily attendance of the school population of 1,804,018 children jumped to 1,345,219, giving an index figure 63.93. In 1918 the index figure for the same item was but 49.

This gain in education does not by any possibility mean that today this State ranks highest or next to highest in education. Other States have made vast improvements and when the figures for their advancement are computed, which it is said will soon be done by the Sage Foundation, the advancement in rating will become clearly evident. It is doubtful, however, if any other single State has made such a tremendous advancement along the line as has Pennsylvania. Upon this generalization, therefore, educational experts grant that Pennsylvania no longer holds the unenviable position of the twenty-first State in the Union in education.

Items Used in Computation. The ten actual items as used in the Ayres computation and the index numbers found in both 1918 and 1921 are:

Items. 1918 1920
1. Per cent. of school

population attending school daily	56.02	73.07
Average days attended by each child of school age	49.00	63.93
Average number of days schools were kept open	87.50	80.00
Per cent. that high school attendance was of total attendance	30.93	31.63
Per cent. that boys were of girls in high schools	78.75	65.95
Average expenditure per child of school age	31.72	61.08
Average expenditure per teacher employed	65.14	98.94
Expenditure per pupil for purposes other than teachers' salaries	62.37	83.24
Expenditure per teacher for salaries	58.50	95.28
Average	57.65	75.33

The drop in item number 3 is explained as a mistake in the computation made in 1918. According to the figure for that date, the number would indicate that there was an average of 175 school days in the year in the State. As the law has increased the school term and not diminished it, and the present average is but 160 days, it is clearly evident that the former computation was erroneous.

The last gain in five items has probably been experienced in many other States, as the post-war conditions have increased the cost of education all along the line. When the figures, however, for the year 1921-22 become available and the results in Pennsylvania under the enactment of the Edmonds Act—or Finegan Schedule, as it was often termed—can be taken into consideration, the gain in the State will be materially increased.

SAVED BY AN EARTHQUAKE!

His sweetheart about to be publicly executed by the horrible "Ling Chee"—death of a thousand tortures. He imprisoned a few yards away in order that her shrieks of agony might ring in his ears. Then he, too, to suffer the awful death by "Ling Chee."

Then a marvelous miracle of nature. A great volcano bursts into eruption! Thousands of tons of molten lava descend upon the scene! The earth rocks! Buildings crash to the ground! The multitude flees in panic! The prison walls are rent asunder! The hero rushes to the rescue.

That is the smashing climax of a great picture.

PUBLIC SALE OF REAL ESTATE

THE BARGER FARM

Located on the Deer Creek Road about six miles from Morrisdale.

Wednesday, Nov. 15th at 1 P. M.

The farm contains 109 acres, 60 acres of which are under cultivation. Balance is in timber, of which a careful estimate has been made and shows about 6,300 standard railroad ties, 41,000 feet of hardwood saw timber and about a half million feet of mine timber of various kinds.

There is a nine room frame house in good condition. There is also a good barn, 50x60 feet. Farm has two wells and several springs located at different points.

TERMS MADE KNOWN DAY OF SALE.

A. D. BARGER,
Kylertown, Pa.

SAGE TEA DANDY TO DARKEN HAIR

Look Years Younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your youthful appearance within a few days.

VOTE FOR PINCHOT

ANOTHER SPECIAL LOT OF PLUNGERS 60c Each

Anyone can use them. They clean out all drains in a few minutes. There should be one in every home.

Only a limited number to sell at this special price.

10 South 3rd St., Both Phones.

Thanksgiving Silverware

The silverware that you use on your Thanksgiving table will greatly enhance the real homeliness of the occasion and you'll find that the bright sparkle of some of the hollow—and flat ware we are showing will make your table the table you would like it to be.

Then, too, you'll be surprised at how little it is going to cost you to add a set of spoons, a set of knives and fork set something else that you have been wishing for these past months. Drop in and see what we have for you and you'll find them real tempting.

Great Rally at Court House Tonight

JAMES MILLS SAYS MRS. GIBSON TELLS TRUTH OF SLAYING

New Brunswick, N. J., Nov. 3.—James Mills, husband of the slain woman who was killed with Rev. Edward Hall, today stood on the scene of the double slaying and declared he thought there was a great deal of truth in the story of Mrs. Jane Gibson, the "big woman."

"My wife and Dr. Hall were killed

James Mills

This is the most recent photograph of the husband of the murdered choir singer.

by someone very close to them," said the man who heretofore has been a meek, unobtrusive person, but who now is demanding that the mystery be cleared up. "The killing in such a manner could never have been carried out by a stranger. They evidently wanted the bodies to be found and identified, else they would have placed them in the thicket obscured from view."

"The murderer, in my opinion, was related to one of them. I believe Mrs. Gibson's story is true."

JUDGE McLAUGHRY REBUKES BREWERS IN LICENSE COURT

Merzer, Pa., Nov. 3.—"Brewers have a higher regard for the almighty dollar than for the constitution of the United States," declared Judge McLaughry today in summarily denying licenses to the applicants at the regular license court. During the examination of applicants each was asked what the difference was between real beer and near beer. Many replied they had difficulty in distinguishing any difference. This admission had a great deal to do with the refusals and brought about the caustic comment of the judge.

DECEMBER JURY IS DRAWN

Jury Commissioner H. C. Conner, of Bunside, and A. Y. Straw, of Pike township, assisted by Sheriff T. J. Lowell, completed the drawing of the jury for December term of court.

They will now fill the jury wheel for 1923.

JORDAN-DELANEY

Von Jordan and Marion Delaney were married in the Eleventh Street Methodist Episcopal Parsonage by the Rev. Charles K. Gibson, on October 18th. They were accompanied by Theodore Jordan and Virginia Delaney. The ring ceremony was used. The newly married couple have taken apartments in the St. Charles.

NEW TURKEY VOTES TO OUST SULTAN FROM THRONE

Constantinople, Nov. 3.—The "New Turkey" has abolished the office of Sultan and the law of succession. A measure passed by the National Assembly of the Ankara government does away with the "Sultany" and repeals the law of succession under which Turkey has been bound and fettered for centuries.

The Khalif who will take over the holy duties and rule over church affairs, an office heretofore held by the Sultan, will be elected periodically and the national assembly will assume all the powers of government.

A salute of one hundred guns roared in celebration of the passing of the new laws.

RECORD TIME IS MADE IN SENTENCE GIVEN ASSAULT

Muskegon, Mich., Nov. 2.—Amid the cheers of hundreds of citizens crowded into and surrounding the circuit court chambers here today Raymond Wilson, confessed abductor of 11-year-old Rosalie Shanty, was sentenced to imprisonment at Marquette for from 35 to 40 years. The court expressed regret a life term could not be imposed.

In sentencing the prisoner the court explained that the delay was to permit study of the case in the hope that some way might be found to impose a heavy penalty. Forty years, the maximum, was recommended.

Wilson, who is 41 years old, confessed to the abduction and attack upon Rosalie Shanty to Assistant City Prosecutor Glenn Dunn shortly before daybreak today after an all-night grilling.

At the time of confession, Chief of Police Peter Hansen and Sheriff William O. Matthews were present.

With a cigarette in his mouth and a trifle stooped in a chair after an ordeal which lasted for hours, he calmly recited the sordid details.

"I had been drinking moonshine," he said at one time during the recital.

Wilson is about six feet tall and weighs more than 170 pounds. In his confession Wilson said Rosalie ran away from him, screaming in terror, at 5 o'clock last Monday evening. She was not found until Tuesday at 6 o'clock in the evening. The police were amazed to find the little

COMPLETE VICTORY IS FORECAST MADE BY GENERAL MINER

Philadelphia, Nov. 2.—Complete victory for the entire Republican ticket and an unusually heavy G. O. P. poll throughout the northeastern section of the State, particularly in the anthracite coal region, is forecast by Colonel Asher Miner, of Wilkes Barre.

The famous world war veteran, in a telegram to W. Harry Baken, Chairman of the Republican State Committee, predicts the election of Senators Pepper and Reed, and Gifford Pinchot, gubernatorial nominee, by more than the usual off-year majority. In his telegram Colonel Miner says:

"I am absolutely confident of a complete victory for the entire Republican Ticket with more than the usual off year majority. Recently the voters have shown a greatly increased interest in the election and the much talked-of apathy has disappeared. Gifford Pinchot has always been strong in Northeastern Pennsylvania and as he has become better known has become more and more popular and stronger than ever. The voters both women and men are with him and mean to stand by him in carrying out his policies."

"Senator George Wharton Pepper and David A. Reed have impressed the people with the fact that they are an exceedingly strong and able team, that Pennsylvania has not been better represented in the United States Senate for many years if ever and that, therefore, they must be continued in office."

"A splendid soldier candidate for Lieutenant-Governor, Mr. David J. Davis, seems to have no opposition. He is being enthusiastically supported by all ex-service men, as well as by all the other voters. He will have a magnificent majority."

"In this Congressional District Congressman Clarence Coughlin is running splendidly and is sure to repeat his splendid victory of two years ago as his record in Congress cannot be surpassed and the voters want no change but will keep him where he is. Luzerne County is also sure to gain a Republican State Senator in the election of Crawford Smith who has impressed everyone with his sincerity and strength altogether. I feel that you as State Chairman can congratulate yourself on the situation and feel sure of a glorious victory."

girl had wandered through the pine-clad forests of northern Michigan for hours.

STRENUOUS PREPARATIONS MADE FOR VISIT OF LOCK HAVEN HERE TOMORROW

By DICK LEIPOLD

This afternoon, Coach Reed and Walt Flegal sent the Varsity players thru their final practice prior to the big game tomorrow with Lock Haven High School on the Local Gridiron. Several new formations that have been developed the past week especially for the Lock Haven clash were thoroughly rehearsed with all the Varsity substitutes getting into the drill, as the entire squad will be subject to call against the crack downriver scoring machine.

Howe Lost, But Gano Returns
Hamm Howe, star end and fullback will not be able to start tomorrow, as he is still suffering with some badly sprained leg tendons, but Gano star 170 pound guard reported to the trainers Thursday evening after a two week's absence, due to injuries sustained in the Greensburg game.

Gano's presence on the line at this time will be a great help to the Red and Black, as he is a tower of strength on either offense or defense. Hedy Johnson, with a special steel leg brace, will be at his regular post, half back, while Capt. Withrow will start at center, as the condition of

DR. M. R. HOAG
Lock Haven High's Hustling Coach.

his leg is much improved.
First Game Since 1919
The invading foot ballers will be accompanied by a large delegation (Continued on Page Six)

THE LAKES-TO-SEA AT A GLANCE

Editor, Charles S. Lord, of the Reynoldsville Star, one of the original band of boosters who made the cross-country Lakes-to-the-Sea highway a possibility and whose indefatigable efforts along with those of his associates will make that highway a completed realization by the end of 1923, printed the following description of the route in his Star last week. It shows the highway as it stands and it gives a clear insight into the sections completed:

Here is a "type and rule" map of the Lakes to Sea from Erie to Tyrone. It is, of course, not accurate to scale but approximately so, and will give an excellent idea of the present condition of the route—the parts paved, the few remaining breaks and where they are. The double line sections are now paved and either open or will be open by the middle of November. The single line indicates sections where paving operations were not finished this year.

Erie	
Waterford	2 mile break
Cambridge Springs	
Sagertown	2 1/2 miles unfinished.
Meadville	
Cochranston	Contract here finished Oct. 30.
Wyattville	15 miles of continuous paving.
Franklin	3 miles unfinished.
Oil City	Bridge to be built.
Van	6 miles not paved but may be avoided by detour to Oil City.
Shipperville	Break of 2,000 feet under railroad; cinder.
Clarion	
Brookville	Approximately 80 miles of continuous concrete.
Reynoldsville	
DuBois	A town named DuBois may be seen to the left.
Grampian	Paved thru Grampianboro.
Curwensville	
Clearfield	Continuous paving for about 38 miles.
Philipsburg	
Sandy Ridge	
Bald Eagle	2 mile break.
Tyrone	Will be finished in 2 weeks.

Where it joins Wm. Penn Highway.

From this map it will be seen that of the entire distance from Erie to Tyrone, less than 20 miles remains to be finished next year, and of this seven miles are in one stretch at Grampian. There are four other contracts on each of which there are breaks of about two miles. All should be finished by the middle of 1923, except the Grampian link, where there is grave doubt of the contractor's ability to finish even by the end of 1923.

Mrs. Charles Livingston and little son of Altoona are visiting Mrs. Livingston's parents.

STATE SCHOOLS PUT NEAR TOP OF THE LIST; GREAT PROGRESS MADE IN PAST THREE YEARS VINDICATES DR. FINEGAN

Pennsylvania, rated as twenty-first among the States in the matter of education in 1918, has made such rapid strides in the last three years that it now stands close to the top in the educational list.

The gain in three years has been at least 33 per cent. The result is that this State now has a rating educationally which equals that given the State ranking second in the list in 1918.

As the State's greatest progress has been made since the adoption of the present educational system—in force during two of the three years in which a gain of 33 per cent. was made—it is evident that had the present system been put in force sooner the State would have ranked in 1918 among the first instead of twenty-first.

The compilation which gives to Pennsylvania the new rating was made in the approved manner, following the same principles and on the same basis as that of the Russell Sage Foundation, made by Dr. Leonard P. Ayres in 1918.

Vindicates Finegan System.
This advance is taken by educators throughout the country as a complete vindication of the system established by Mr. Thomas E. Finegan, State Superintendent of Education, and backed by the State Legislature through the passage of the Education act during the session of 1921.

The method of computing the ranking of the State in education is complex and long. The figures of attendance and expenditures are balanced and compared with the State census of children of school age. From this balancing is obtained a number which is termed the index figure for the

State. The index figure which gave Montana the leadership of the country in 1918 was placed by the Sage Foundation at 75.79. The index figure of Pennsylvania in the same year was 57.65.

The Pennsylvania index figure today is 75.33 or but forty-six one hundredths of a per cent. behind the index figure which led the country three years ago.

That new index figure has been compiled from figures of the State Department of Education for educational attendance and expenditures for the year 1921. The compilation of that figure and the correctness of the new index, number has been checked and pronounced correct by Dr. Ralph G. Hurlin, director of the department of statistics of the Russell Sage Foundation.

Dr. Hurlin Approves Method.
Dr. Hurlin, in going over the figures used, said he had found the method employed in making these calculations correct and in accordance with the method employed by Dr. Ayres who made the calculations in 1918. In commenting on the results, Dr. Hurlin said:

"Having gone over with you the methods followed in computing the school system's index number for Pennsylvania for the year 1921, and having examined the component index numbers calculated by you, I do not see any reason to doubt the comparability of your index number with the number computed by Dr. Ayres for Pennsylvania for the series of years ending in 1918."

"You understand, I realize, that this statement concerns only the

UNSEEN POWER, NOT MRS. ROSIER, FIRED SHOTS, SAYS SCOTT

Philadelphia, Nov. 3.—Pleading with the jury for the acquittal of Mrs. Katherine Rosier, 22 year old sister of her husband and his stenographer Jerry Rickett, counsel John R. K. Scott today savagely attacked the Commonwealth evidence. Scott declared the shots that entered the bodies of Rosier and the girl were fired, not by the girl, but by an unseen power in her mind which for the moment had complete control of her actions. The case may go to the jury late today.

TWO TRAIN ROBBERS KILLED IN HOLD-UP NEAR MEMPHIS, TENN.

Memphis, Tenn., Nov. 3.—Two train robbers were shot and killed today when they held up the St. Louis-Memphis special on the Frisco System near a point called 65. Jack Kennedy, alias "The Quail Hunter," an ex-convict who has served 20 years for train robberies is believed to be the name of one but the other is unidentified.

PRETTY HOME WEDDING

The home of Mr. and Mrs. William Hainey, at 406 River street, was the scene of a pretty home wedding on Monday last, when their daughter Miss Hannah, became the 14 year old bride of G. L. Siles, of Dilltown, Pa. The couple were attended by Denzel Rainey, the bride's brother and Miss Hannah Smith, cousin of the bride. The happy young couple departed after the ceremony for a wedding tour which will embrace the western cities and on their return will take up their residence in Clearfield.

Mrs. Samuel Forney and little son have returned to DuBois, having spent several days with Mr. and Mrs. Arthur Rowe.

MUMMERS' PARADE TO BE FEATURE OF BIG ARMISTICE DAY HERE

John Shade Post of the American Legion is making preliminary arrangements for the staging of a big Armistice Day celebration in Clearfield.

A feature of the big time will be a monster mummer's parade in the evening. In this parade all who desire to may enter and contest for the different prizes to be awarded the paraders. There will be several prizes and everybody will have a chance at them.

Clearfield, thus far, has never staged a real Armistice Day celebration since the first impromptu affair which bobbed up spontaneously upon receipt of the glad tidings that the great world war had ceased. The Legion boys propose now to put on a celebration worthy of the day and so merit the co-operation of every resident of Clearfield.

Let us all turn in and help the boys and make memorable this occasion in remembrance of those comrades in arms who have passed beyond after giving their all to their country.

The program has not been completed yet, but we know already that it is going to be some time. The Legion Band and the Clearfield Italian Band will furnish the music for the occasion, which guarantees that feature to be well taken care of.

Following the parade the American Legion Auxiliary and the American Legion will entertain at The Dime with a banquet, dance, etc., and there will also be a public meeting in the Court House during the evening.

As we said before this is just a preliminary announcement. We will have more to say about the big celebration from time to time. Meaning the affair the success it should

PINCHOT TICKET IS TO BE BOOSTED BY MANY SPEAKERS

Will Mark Beginning of
Ballot Battle Which
Won't End Until 7 P.
M. Next Tuesday.

LADY WILL SPEAK

The Republican rally at the Court House tonight promises to be the largest and most enthusiastic meeting of the present campaign.

The committee in charge has been informed that large delegations of Republicans will come to Clearfield from every section of the county and an "overflow" meeting on the Court House square it is thought will be necessary.

The list of speakers contains the names of the leading local orators in addition to the different District candidates, while the "topliner" of the evening is the Hon. Emerson Collins, of Williamsport, a Deputy Attorney General and noted as one of the best, if not the very best public speaker among the Republicans of the State. Mr. Collins is a highly pleasing, convincing talker and the message he brings to Clearfield county Republicans this evening will warm the co-sides of their hearts.

Mrs. Edith Elliott Smith, a talented woman speaker from Philadelphia, will also address the meeting, paying special attention to those problems the woman voter is attempting to solve for herself.

That old "war horse" of many Clearfield county campaigns, A. H. Woodward, Esq., is also on the program, and it is needless to tell a Clearfield county audience what a treat his speech will be.

District Attorney John C. Arnold, another militant apostle of Republicanism, with the courage of his convictions and the ability to present Republicanism in its most alluring form, will also give his reasons for the absolute necessity of continuing that party in power in the State.

Hon. William I. Swoope, our candidate for Congress, the placing of whose name on the speaker's program always insures a crowd on any occasion, will talk to his friends and neighbors and endeavor to show them how right will triumph with the election of Gifford Pinchot and the entire Republican ticket in the State.

Hon. Harry B. Scott, of Philipsburg, who will represent this district in the Senate at Harrisburg for the coming four years, whose presence in that body will be a real asset to Centre and Clearfield counties, is also on the program for a business man's talk, while Hon. D. D. Miller, of Grampian, and Hon. Charles B. Jones, of Ramey, will also address the meeting.

This gathering promises to be one of those old-time "ringside" meetings, such as were held in days of yore, and every person desiring to hear the issues now confronting the electorate of Pennsylvania intelligently and fairly discussed should be present.

Mrs. James Schwem of DuBois is visiting Judge and Mrs. Singleton Bell.

It is his bounden duty to assist in making the affair the success it should be.

Tom Sims SAYS--

A man bigger than you is never a liar. He is mistaken.

In describing a whirlwind talker you can leave off the whirl.

An excellent book to carry on a trip is a mileage book.

Twenty years ago we were discussing prohibition, but not as much as we are now.

Girl rode 5000 miles to marry a man in Florida, but some chase a man farther without luck.

Immodest bathing suits have gone. Immodest divorce suits have not.

Scientist finds the average mouse runs about ten miles a day. Read this to the women folks.

The trouble with taking things as they come is you never can tell what is coming.

They have talking movies in Germany and talking audiences here.

If Dempsey can't get mad enough to fight why not appoint an assistant champion?

Mrs. John Blake of Curwensville was among those shopping here yesterday.

Mr. and Mrs. H. A. Krebs, of Wilam street entertained at dinner yesterday, the latter's parents, Mr. and Mrs. Jas. A. McLaughlin and Mrs. Clara McLaughlin, of Clairton, who are spending the winter in this place.

The T. A. G. Club of the West Side, gave a masquerade party at the Third Ward school Thursday evening in honor of their friends. Delicious refreshments were served at a late hour and the guests departed having spent a very delightful evening. This is one of the many successful clubs over which Mrs. Cal. Johnson, of Nichol street supervises.

Bora, a bouncing boy-baby to Mr. and Mrs. Gerald Roach of Osceola, at the home of Dr. A. C. Lynn at Philipaburg.

GETTING UP NIGHTS

This is One of Nature's Danger Signs. E. E. Mullen Tells Experience

E. E. Mullen, No. Kenova, Ohio, says: "For 10 years I have been troubled with kidney and bladder. I had to get up 5 or 6 times each night. I had taken many kinds of medicine, but Lithiated Buchu (Keller formula) is the only kind that gave me any relief. My bladder is normal and I have only used the remedy for three weeks. If you want further facts, write me."

Lithiated Buchu (Keller formula) acts on the kidneys and bladder like Epsom Salts on the bowels. It cleans them out, relieving the passage of many abnormal deposits. These tablets cost 2c apiece. The price makes it possible to place in the formula several drugs which are useful for relief. The formula is on the package. It is not likely you have ever taken anything similar. Try a few tablets for backache, scalding, scanty or high-colored urine, and frequent desire at night.

Be sure to get the Keller formula Lithiated Buchu at all drug stores, or write Keller Laboratory, Mechanicsburg, O., or locally at Stewark Drug Store.

ODDS AND ENDS AND THINGS

By J. D. C.

The yellow journals of birdland, if any existed, could print some racy stories about their prominent citizens, if polygamy were news; but, on the contrary, it is quite common among man's feathered friends, according to S. Prentiss Baldwin, of Cleveland, speaking before the fortieth state meeting of the American Ornithologists' union, at the Field museum, Chicago.

Birds, he has found, show little fidelity for their mates beyond a single season, and usually have new ones every year.

Mr. Baldwin has a farm at Thomsville, Ga., and has been banding birds for several years. In one respect the birds show remarkable fidelity to their "summer homes," Mr. Baldwin has observed among those birds he has banded.

They return from the north to the outland regularly each winter, and go back to the pen where they were first banded. Mr. Baldwin said, though usually with a new mate.

One house wren observed by Mr. Baldwin had a new mate each season for four years. In another case Mr. Baldwin observed a pair of wrens in 1919. They returned in 1921 with a son each, with a new mate, and the son himself had taken a bride. But

ATTENTION!

Farmers and Dairymen

THE STONE HOUSE FARM has for sale three pure bred Holstein Bull Calves from 3 to 5 weeks old, out of some of the best bred and most valuable stock in central Pennsylvania.

THE DAMS of these calves are granddaughters of Pontiac Korndyke, one of the most famous bulls in this country. Those cows during the last 11 months gave 8333 lbs, 8728 lbs and 8808 lbs of milk respectively. The former two it was their first time fresh and this year their records so far indicate that they will produce at least 10,000 pounds of milk each

THE SIRE of these calves is Major Lyons Korndyke, No. 341142, the STONE HOUSE FARM two year five months old bull that won three blue ribbons at this year's Clearfield County Fair, being declared Grand Champion by the judges over pure bred Holstein bulls of every class.

If you want to increase the milk production of YOUR herds and hence the net profit of YOUR dairy, you can do so by securing one of these excellently bred bull calves. Address without delay

OTHELLO RANGE
...is...
The Perfect Range

Your Wife can do Better Baking with one of OUR NEW IMPROVED OTHELLO RANGE

LESS FUEL EVEN HEAT LESS WORK

The OTHELLO is the perfect range, because every part and principle is the result of test and elimination. But aside from the mechanical principles, did you ever stop to consider the features that govern a woman, in making her choice of a Range? They are refined simplicity, ease of operation, and durability—good service.

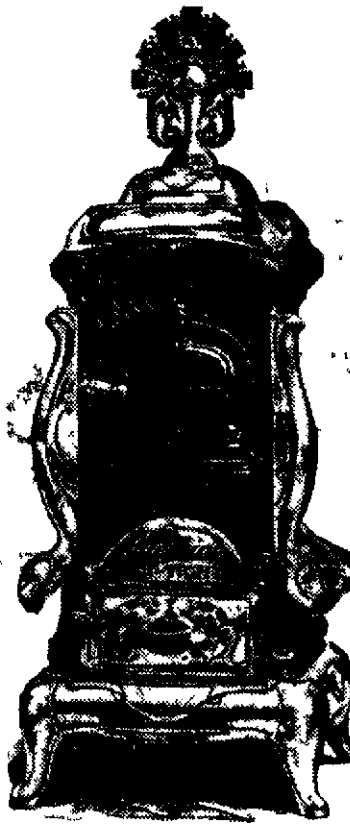

The OTHELLO in a tasteful shade of Enamel, selected with reference to other Kitchen furnishings, may be quite as pleasing to the eye as the Piano in the Parlor. It is clean—attractive—efficient. Its possession assures the contented feeling, which is the accompaniment of perfect work.

The OTHELLO is everywhere considered the standard.

There are over 300,000 housekeepers using the OTHELLO Range today. When the great number of rival cooking Ranges is considered—there certainly must be a reason.

The advent of Porcelain Enamel, as applied to cooking apparatus, has rescued the lowly range from its dark corner of the Kitchen to a "place in the Sun."

Buy Your OTHELLO Before We Must Advance The Price.

SUNSHINE AIR-TIGHT DOUBLE HEATER

This is an entirely new production, original in design and embodying all of the good points of the most successful Air-Tights previously put upon the market. Already it is receiving the most favorable comments, as to its splendid appearance, and completeness in every respect. Immediately upon its introduction, a voluntary letter of commendation was received from one of the largest handlers of Air-Tight stoves in Pennsylvania. This has been followed by others, of a similar character, quite unsolicited by us. So that we are convinced, we have in this stove, the very best Air-Tight, anywhere to be found

Pasturization Protects the Baby

The process of pasteurization thru which all our milk passes protects the baby who is being "brought up on a bottle." There's absolutely no danger, providing the bottles and other things are given proper care, of the baby getting any of the possible germs that lurk in milk that has not gone thru the pasteurization process. These germs are absolutely done away with thru the process.

Feed the baby all the Clearfield Milk he or she can drink and you'll be surprised at the way regular gains are being made right along.

Clearfield Dairy Co.

GLASS BASKETS 98c

Here is a little buy we made and it just came in time for you to plan on having one for the dressing of your table for the Thanksgiving dinner.

It is made from a heavy weight, with a full ring glass and the pattern is cut in deeply, with sharp edges. The handle is sturdy and won't break very easily.

Drop in and see them and then plan to yourself how pretty one would look as the center of your Thanksgiving table, filled with fruit.

Enrich the Diet

When the diet is deficient in health-building vitamins, children and adults suffer in body and strength.

Scott's Emulsion

of pure cod liver oil abounds in health-building vitamins. If the body is run down in vitality, add the pure vitamin richness of Scott's Emulsion to the diet. It builds up health.

Scott & Borne, Bloomfield, N.J. 22-27

Good Work Never Lost.
No good work is ever lost; many laborers must be content to sow, others will come to reap the harvest.
—Max Muller.

Strenuous Preparation

(Continued From Page One.)

of rooters, who are backing their team to win, altho they admit Clearfield to be their most formidable rival, according to all the "dope." Tomorrow afternoon will be the first contest between Clearfield Hi and Lock Haven H. S. since 1919, when the local outfit journeyed down to the log boom town and lost 7 to 7. Clearfield's Coach was not pleased

with the officiating, which was reported to be very "loose."

Real Team Will Represent Visitors

Under the coaching of Dr. Hoag former University of Pittsburgh football star the down river city has rapidly forged to the front ranks in scholastic foot ball circles. Last season playing a long and hard schedule Lock Haven lost but one game, to Mt. Carmel, by a 6 to 0 score. Every man that played last fall is a member of this season's squad. Six men are playing Varsity ball for the third consecutive season, two players have been regulars four years, while the remaining three gridders that round out the line-up that start against C. H. S. tomorrow are second season men. Clearfield will be out weighed several pounds to the man, the visitors having unusually heavy high school ends. Johnnie Rathgeber, playing his fourth Varsity year in the back field at quarterback, is said to be one of the best school boy generals in Central Penna. The Lock Haven machine is going at top speed now, with wins over Johnstown, Altoona, Williamsport and several lesser elevens expect to riot C. H. S. tomorrow and thus tighten their claim to a Central Pennsylvania Championship. However, the local squad, bungled up as it is, will enter the contest determined to fight to the final whistle.

A real game is in store for the fans who attend. Clearfield Hi will not play at home until November 25, State steam roller. If Greensburg wins, they will be favorites to retain the State H. S. title.

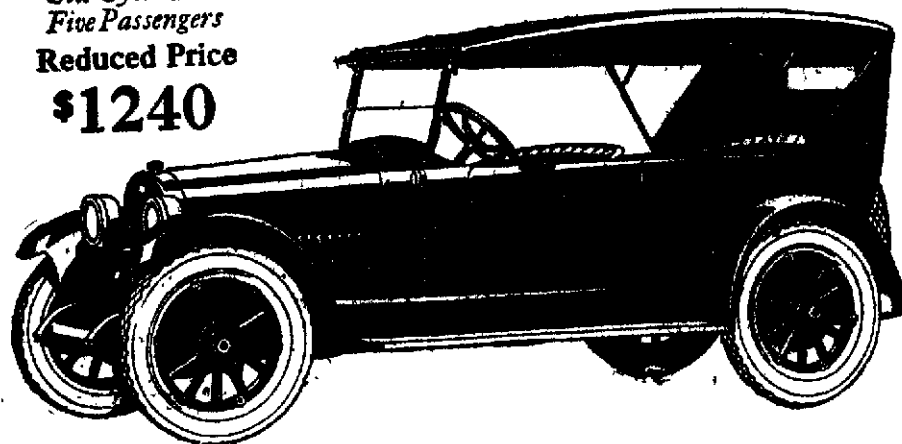

A number of important school boy battles tomorrow will be of interest to local fans. Greensburg Hi will get its first real test Saturday, when the

University of Pennsylvania Junior eleven lines up at Greensburg, Pa., to block traffic in front of the West State steam roller. If Greensburg wins, they will be favorites to retain the State H. S. title.

Here are some near home games: Curwensville vs. Cooper township at Curwensville. Philipsburg vs. Juniata High at Philipsburg. DuBois vs. Ridgway at DuBois.

ACCURACY in ACCOUNTING

Within the memory of persons still living the word "accounting" brought up a picture of a man on a high stool writing with a quill pen and using sand instead of blotting paper.

But the telephone belongs to a newer era, and telephone accounting is as modern and as accurate as is humanly possible.

The men and women who do the accounting work are careful and take every precaution to avoid mistakes.

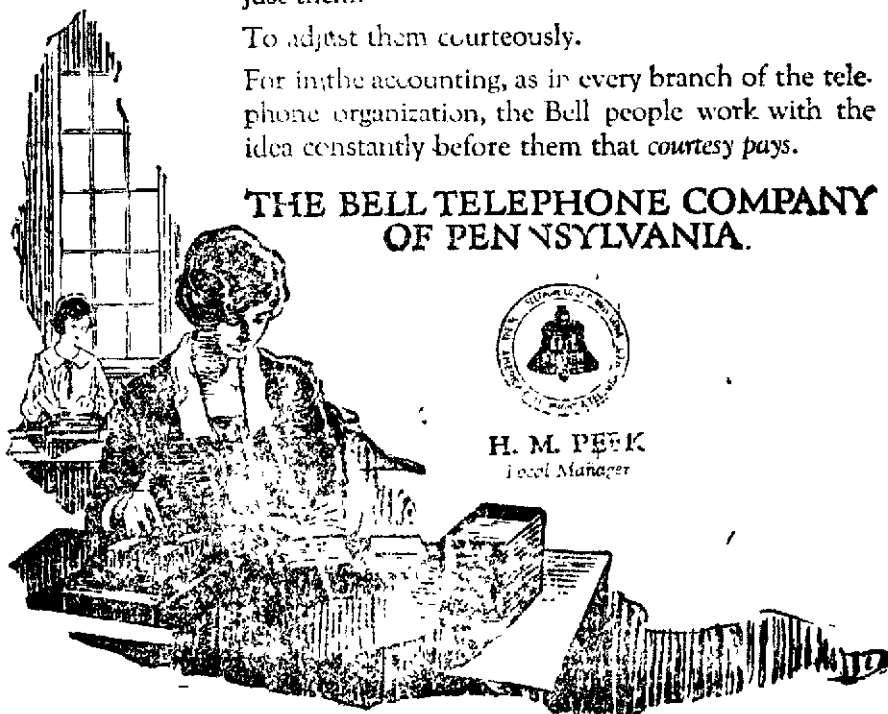

For they know that errors sometimes cause misunderstandings.

When mistakes do occur—and they are bound to occur once in a while—every effort is made to adjust them.

To adjust them courteously.

For in the accounting, as in every branch of the telephone organization, the Bell people work with the idea constantly before them that courtesy pays.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The funeral of Mrs. Wilson Maner was held yesterday afternoon and was attended by a large number of friends, forty eight members of her bible class being present at the church in a body. The floral offerings were plentiful and beautiful in design. Many wended their way to the cemetery to witness the last sad rites performed at the grave of their friend.

The Bloomington Coal Company is extending their operations and arranging to mine and take out the coal from under the Stacy Bowman farm near Bloomington. Among other mining appliances being put in the new opening will be a cutting and loading machine. The vein is about 22 to 28 inches.

For the past two or three days almost every male of legitimate age, who owned or could borrow a gun, has been roaming the woods and fields in quest of wily rabbit and seductive quail or pheasant. So far as a confirmation of reports is concerned, no nimrod has confessed to securing the limit in one day as allowed by law.

There is not a great many tax payers in this town who directly oppose the paving of Thompson street from State to George street. There is no doubt whatever, the property owners along that line, if approached in a proper manner, would agree to have the street paved on the same terms that Walnut street property owners are having that work done. That this improvement is a long felt want, none can deny, and now is

just as good a time as a year hence to have the work done.

"Will the vote on the school house bond issue be favorable or unfavorable, is the question that is being debated by the voters of this borough at present. Individually speaking the writer is an advocate of the new bond issue, because it is demonstrated more clearly day after day the town's need of a larger and more commodious High School building, and one in which there should be ample room, not only to accommodate the town students, but the large number that attend the Curwensville High School from adjoining territory. Pike township pays into the school fund almost \$4,000 yearly as a compensation for schooling residents of that precinct. Had Curwensville the facilities for taking care of non-resident pupils, that income would possibly double itself, but this cannot be done unless the school board be given the financial support in the erection of a new High School building. Think it over carefully, voter.

STATE SCHOOLS

(Continued From Page One)

method of calculation, since I have not examined the actual calculations involved.

"The 1921 index number suggests a striking improvement in the Pennsylvania system notwithstanding the fact that some of the increase due to financial items is to be explained on the ground of a general situation in education.

"I think Pennsylvania may well congratulate itself upon the situation."

Dr. Finegan is Pleased. Dr. Thomas E. Finegan was extremely pleased when shown the figures representing the gain in education in the State.

"I am gratified to learn," he said, "that the Evening Public Ledger has had the enterprise to have these calculations made and that the results found show such advancement in the

educational progress of the State. The full force of the State program in education is not reflected in these figures. They represent the first two years of the present administration and do not show the progress achieved under the legislation of 1921 including the Edmonds law, which did not become effective until the school year 1921-22.

"While we have reason for encouragement in the results, which these computations show, we must keep in mind that other States have made progress and that these figures do not yet place Pennsylvania at the head of the list, where she belongs and the position she must attain."

The details of the study of the increased efficiency show a gain in every item but one of the ten important details which are the fundamentals used in finding a correct index number for the State. Five of the ten items deal entirely with compulsory attendance.

Attendance Laws Rigidly Enforced. One of the most important actions taken by the State authorities, and the one which has received great criticism, has been the rigid enforcement of the attendance laws as laid down by the State. Soon after the reorganization of the State Department Dr. Finegan announced that school appropriations would be withheld from school districts that did not enforce the attendance laws. The State Department of Attendance then went into every district of the State to supervise the rigid enforcement. The action brought great criticism on Dr. Finegan, especially when he withheld the appropriations in several cases. The result, however, is evident for the percentage of school population attending school daily in 1918 was 56.02 while for the year

1921 it reached 73.07. In like manner the average daily attendance of the school population of 1,804,018 children jumped to 1,345,219, giving an index figure 63.93. In 1918 the index figure for the same item was but 49.

This gain in education does not by any possibility mean that today this State ranks highest or next to highest in education. Other States have made vast improvements and when the figures for their advancement are computed, which it is said will soon be done by the Sage Foundation, the advancement in rating will become clearly evident. It is doubtful, however, if any other single State has made such a tremendous advancement along the line as has Pennsylvania. Upon this generalization, therefore, educational experts grant that Pennsylvania no longer holds the unenviable position of the twenty-first State in the Union in education.

Items Used in Computation. The ten actual items as used in the Ayres computation and the index numbers found in both 1918 and 1921 are:

Items. 1918 1920
1. Per cent. of school

population attending school daily	56.02	73.07
Average days attended by each child of school age	49.00	63.93
Average number of days schools were kept open	87.50	80.00
Per cent. that high school attendance was of total attendance	30.93	31.83
Per cent. that boys were of girls in high schools	78.75	65.95
Average expenditure per child of school age	31.72	61.08
Average expenditure per teacher employed	65.14	98.94
Expenditure per pupil for purposes other than teachers' salaries	62.37	83.24
Expenditure per teacher for salaries	58.50	95.28
Average	57.65	75.33

The drop in item number 3 is explained as a mistake in the computation made in 1918. According to the figure for that date, the number would indicate that there was an average of 175 school days in the year in the State. As the law has increased the school term and not diminished it, and the present average is but 160 days, it is clearly evident that the former computation was erroneous.

The last gain in five items has probably been experienced in many other States, as the post-war conditions have increased the cost of education all along the line. When the figures, however, for the year 1921-22 become available and the results in Pennsylvania under the enactment of the Edmonds Act—or Finegan Schedule, as it was often termed—can be taken into consideration, the gain in the State will be materially increased.

SAVED BY AN EARTHQUAKE!

His sweetheart about to be publicly executed by the horrible "Ling Chee"—death of a thousand tortures. He imprisoned a few yards away in order that her shrieks of agony might ring in his ears. Then he, too, to suffer the awful death by "Ling Chee."

Then a marvelous miracle of nature. A great volcano bursts into eruption! Thousands of tons of molten lava descend upon the scene! The earth rocks! Buildings crash to the ground! The multitude flees in panic! The prison walls are rent asunder! The hero rushes to the rescue.

That is the smashing climax of a great picture.

Kylertown, Pa.

SAGE TEA DANDY TO DARKEN HAIR

Look Years Younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your youthful appearance within a few days.

VOTE FOR PINCHOT
